PROFILE

Passionate and detail-oriented front-end software engineer with 2.5 years of experience specializing in building dynamic, user-focused applications using React and TypeScript. Currently contributing to innovative projects at stead.global 🔗 , I excel in delivering scalable, responsive solutions that prioritize both functionality and user experience.

PROFESSIONAL EXPERIENCE

Frontend Engineer   07/2022 – present
Stead Technologies 🔗   Bangalore, India
Worked on the development of a browser-based application using React and TypeScript. Collaborated with cross-functional teams to ensure timely delivery of project milestones.

- Developed new features and enhancements for the application using React and TypeScript.
- Implemented REST APIs to connect the application to the backend services.
- Collaborated with cross-functional teams to ensure timely delivery of project milestones.
- Debugged and resolved application issues to improve user experience.
- Website building and SEO

PROJECTS

Rapid.cloud 🔗   02/2023 – present
Frontend Developer
Rapyd Cloud offers highly trusted managed WordPress hosting, ensuring peak performance for dynamic websites, even with heavy traffic.

- Developed and maintained reusable, high-quality React components to enhance the user interface and overall application performance.
- Integrated **Paddle.js** for seamless payment processing and **Intercom** for robust customer support functionality.
- Implemented API integrations to ensure smooth communication between the front end and backend services.
- Incorporated **Featurebase** for collecting and managing user feedback, improving user satisfaction and feature alignment.
- Managed global state using **Redux**, ensuring efficient data handling and application stability.
- Mentored junior developers, conducted thorough code reviews, and promoted best practices in code optimization and front-end development.

Technologies Used: React.js, Paddle.js, Intercom, Featurebase, Redux, API Integration

Kipe.co 🔗   2023 – present
Frontend Developer
Optimize your business operations with tools designed for better time management, seamless invoicing, and effective team coordination.

- Led end-to-end front-end development, including website creation, SEO optimization, and seamless API integration using **Axios**.
- Implemented **Stripe** for secure payment processing and migrated the project from **Webpack** to **Vite**, enhancing build performance and development efficiency.
- Customized and extended the **Material UI** library to align with project requirements and improve the user interface.
- Developed additional features, such as the **Kipe Invoice** system, contributing to enhanced functionality and user satisfaction.

- Optimized front-end performance, delivering real-time updates and a robust, engaging user experience.

Technologies Used: React, SASS, Stripe, Axios, Vite, Material UI

Tack App
07/2022 – 2023
Frontend Developer
Efficient and effortless time tracking app built to manage your team and projects.

- Developed and optimized the **Tack** website and web application, focusing on efficient state management, seamless API integration, and improved SEO performance.
- Enhanced user engagement by optimizing front-end performance and ensuring a smooth, intuitive user experience.
- Implemented **Stripe** for secure payment processing

Technologies Used: React, SASS, Stripe, API Integration, SEO Optimization

EDUCATION

ICA Higher Secondary	2015 – 2017
University of Kerala	Kerala, India
ICA Primary School	2005 – 2015
University of Kerala	kerala, india
Bachelor of Science in Computer Science	2018 – 2021
University of calicut (with arrears)	Kerala, India
Quest Innovative Solutions Pvt Ltd	2022
Full stack development	Ernamkulam, India

SKILLS

React js
Skilled in building scalable React.js apps, reusable components, state management, API integration, and performance optimization.

TypeScript
Proficient in TypeScript for building robust, type-safe applications, enhancing code reliability and maintainability.

TailwindCSS & SCSS
Experienced in using **TailwindCSS** for utility-first design and **SCSS** for modular, maintainable styling.

Github
Proficient in **Git** for version control, with expertise in branching, merging, rebasing, conflict resolution, and optimizing collaboration in large-scale projects using advanced Git workflows.

MUI
Skilled in using **Material-UI (MUI)** for building responsive, accessible, and customizable React components and UIs.

HTML & CSS
Proficient in **HTML** for structuring content and **CSS** for styling, with expertise in responsive design and modern layout techniques.

Paddle.js
Familiar with **Paddle.js** for integrating payment processing systems, handling secure transactions, and managing subscription features.

Python, Django & Postgres
Beginner-level experience with **Python** and **Django**, focused on developing basic web applications, learning backend logic, and working with databases.
